Most Expert Operators Fail to Understand Its Move-

LOW RECORDS

Stocks Take Slump, the Depression Being General in Street.

[Special to The Times-Dispatch.]
New York, July 23.—Notwithstanding the favorable bank statement, showing increase of a little more than \$16,000,000 in cash, the stock market to-day continued weak and irregular with heavy liquidation in the leading issues. The action of the market during the past two days, or since the decrease in the dividend rate of National Lead, has been puzzling in the extreme, even to the most expert operators. From time to time support was extended to the market, this being especially noticeable in the copper issues. But this support was wavering and at the close practically the entire list had sold off with declines of from 1 to 2 points.

Amalgamated Copper, after being allowed to drop one-half point from Friday's close, sustained a rally of sufficient proportions to make its net loss for the day only three-quarters of a point. Both Anaconda and Utah sustained fractional losses. Copper shares have met with the greatest show of support in the entire list. There is a suspicion that the larger interests are committed to a policy of sustaining copper issues largely for its effect on the general list.

National Lead, on which rests the responsibility for the most recent slump in the market, sold down to

to recently have made up the majority of dealings. Nipissing, although very active, held steady around 10 %, while Keer Lake lost three-eights of a point shares of La Rose changed hands at

3%. Florence Goldfield led the gold issues with a slight fractional advance. Goldfield Consolidated held firm. Copper shares were neglected, and price changes in them were immaterial.

New York, July 23.—Money on call nominal. Time loans much softer and very active; sixty days, 3@3 1-4, and ninety days, 3 3-4@4; six months, 5@ 5 1-4. Prime mercantile paper, 5 1-2@ 6 per cent. Sterling exchange about steady, with actual business in bank-trs' bills at \$4.8355@\$4.8360 for sixty-day bills, and at \$4.8560 for demand. Commercial bills, \$4.83@\$4.83 1-2. Bar silver, 54 3-8. Mexican dollars, 44.

compitted to a policy of sustaining copper issues largely for its effect on mitted to a policy of sustaining copper issues largely for its effect on mitted to a policy of sustaining copper issues largely for its effect on the action of the second of the CHICAGO GRAIN MARKET.

Chicago, Ill., July 22.—Signs that wheat would be pouring into Chicago next week made any idea of holsting prices to-day look absurd. Then, too, there were reins in the canadian Northwest, heiping the crop situation. In consequence the market, except for a little display of firmness in the last few minutes, was weak all day, and closed with a net loss of 'h to '% 2° C. Corn, which reactived only secondary attention, finished at the winaup showed a decline of 'kg's to 'hc., and provisions 10g171/20.

New Orleans, July 23.—Cotton—Spot cotton quiet and unchanged. Sales on the spot 316 bales and 106 to arrive. Cotton futures opened steady at an advance of 198 points. Cables were favorable, but weather and crop news was regarded as being more builish than bearlsh, which caused covering among nervous shorts on the first call. In the early trading July advanced to a level 3 points over yesterday's closing, August was put 3 points up, and the more active new crop months sold 364 points up. At the end of the first hal fhour of business a moderate profit-taking movement started on the long side, and the list fell off 566 points. On this decline very little short oction was put out, owing to the weather continues and the promised dry weather in Texas and showers in the Eastern beit over Sunday, just the reverse of the weather conditions desired. From the middle of the moraing on shorts delayed the nervosness over the unfavorable weather prospects for Sunday, and they bought to cover on an extensive scale, especially be the new crop months, with the result that October was put up to the 13c level and all new crop options rose until they were well over yesterday's final quotations. July was neglected, but August was again forced up to the highest of the session. The market closed steady at an advance of 568 points, except on July, which was compared with yesterady's final quotations. Cotton futures closed steady. Close: July, 14.75; August, 14.48; September, 12.80; October, 12.97; December, 12.88; January, 12.89; March, 12.00.

Nominal No The new State of Oklahqma, which is something of a hustling Commonwealth, has an agricultural immigration department, and that department is sending through the Eastern and Southern States an advertising ear, loaded down with the products of the new star in the flag of the country. The car struck Richmond last week and tarried a day or more. I took a squint at it, in fact, several squints, and I say everything in it before I got through with the squinting, and, the presumption being that no samples were left behind, I take it I saw a sample of everything that grows in Oklahoma's soil or in the waters thereof.

I have nothing to say agin' Oklahoma's but I certainly did not see anything in the agricultural line or any other line in that whole car that does not grow and grow abundantly in Virginia. Moreover, the samples of oats were not near as fine as some that are now on exhibition in the office of Commissioner Konne. is sending through the Eastern and

Richmond. - Virginia

Agricultural Department. The wheat was not quite up to acres of that grain I saw the folks cutting on the lower James a few weeks ago. The potatoes were not near so large as thousands of bushels I have seen in the Tidewater section of Virginia. The hay was no better than that I saw Captain Snead cutting in Fluvanna county last week, and not altogether as good as Captain Jack this year cut from along the banks of the Rappahannock. The fruits did not compare with that which grows in the orchards of Albemarle, Augusta, Orange and many other counties of Virginia.

As for corn, well, the boys' corn clubs in Halifax, Charlotte, Pittsylvania, Goochland, Nottoway, Prince Edward and numbers of other counties can beat the Oklahoma specimens all to pieces, and as a matter of fact, C. W. Tompkins's boys did go out to Omaha last year with samples of Caroline county corn and walked right away with the Oklahoma exhibits at one of the biggest corn exhibitions ever held in this country and came back home with a big blue ribbon. Furthermore, several things that grow to perfection in Virginia were conspicuous by their absence from the Oklahoma exhibition and advertising car: for insance, there were no to bacco samples, no peanuts, no alfalfa, no Smithfield hams, no ginseng, no walnut timber, no coal, and, of course, no oysters and no crabs, not even in cans.

no oysters and no crabs, not even in cans.

Oklahoma may be, doubtless is, a great State of its kind, but when you come down to digging wealth out of the ground old Virginia is far ahead of the new Commonwealth. Maybe some day the State Agricultural Department will send G. W. Koiner and J. J. Owen out with a Virginia exhibition and advertising car, and if so they will probably drop down into Oklahoma and show those people samples that are samples from the greatest food and miment raising State in this mighty nation.
